To the Ministry of Education and Research,

**Subject: Application for a Scholarship for a Master's Degree in
Computer Science in Romania**

Dear Ms.

I am honored to submit my application for a scholarship to pursue a Master's degree in Computer Science at a Romanian university for the upcoming academic year.

Driven by a strong passion for digital technology and software development, I have built a solid foundation in Algorithms, Database Management, Cyber Security, and Programming throughout my undergraduate studies. My professional goal is to design innovative technological solutions and master complex systems.

Enrolling in a Master's program in Romania represents an exceptional opportunity for me to benefit from high-quality education, renowned for its technical excellence in the Information Technology sector.

Romania has emerged as a major technological hub in Europe. Studying in such a stimulating environment would allow me not only to deepen my technical expertise but also to gain valuable exposure to a diverse international academic culture.

I am determined, disciplined, highly adaptable, and fully prepared to commit myself to this demanding curriculum.

I remain at your full disposal to provide any additional information.

Thank you for your time and consideration.

Yours faithfully,

Ali Rachedi Ramzi

SUMMARY

High achieving Computer Science student at Badji Mokhtar Annaba University, ranked 1st in class (Valedictorian). Proven track record of academic excellence with a strong foundation in algorithmic problem solving and software development. Seeking to pursue advanced studies in Romania.

EDUCATION

Bachelor of Computer Science (L3) | *University of Annaba (Expected 2026)*

- Focus: Algorithms, Statistics, Compiler Theory, and Operating Systems.
- Key Coursework: Database Migration, UI/UX Design, and Backend Architecture.

Technical Baccalaureate 2023 (Math Technique) | Taher Ali High School

- GPA: 16.74/20 (High Honors)

TECHNICAL SKILLS

- **Programming Languages:** Kotlin (Android), Python, C, C++ (basics).
- **Software & Tools:** Full-stack development, Firebase integration, UI/UX design, Microsoft Office Suite.
- **Languages:** Arabic (Native), English (B2), French (B2).

PROJECTS

"Mishwar" a Tech Startup Carpooling Application for my Dissertation Project

- Lead developer for a community-based carpooling app tailored for the Algerian market.
- Designed the user interface and created the brand identity, including logo design.

INTERESTS

- Cybersecurity research.
- App Development
- Advanced strength training and bodybuilding.
